6. The proposed Amalgamation of CMI Energy India Pvt Ltd with CMI Ltd, will be affected by the arrangement embodied in the Scheme of Amalgamation framed under sections 230 & 232 of the Companies Act, 2013, the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016, the National Company Law Tribunal Rules, 2016, and other applicable provisions, if any.

7. Rationale and Benefits of the Scheme:

The circumstances which justify and/or necessitate the proposed Scheme of Amalgamation of the Transferor Company with the Transferee Company; and benefits of the proposed amalgamation as perceived by the Board of Directors of these Companies, to the Shareholders and other stakeholders are, inter alia, as follows:

- a. The Transferor Company is a Wholly Owned Subsidiary of the Transferee Company. Both the Transferor and Transferee Companies are engaged in similar business activities. The proposed Scheme of Amalgamation would result in business synergy, pooling of resources and consolidation of these Companies.
- b. The Transferor Company had a troubled history; operations of the Company were suspended for around 2 years during 2014-2016. The Transferee Company, on the other hand, is a well-established player with strong financials and marketing presence. After long negotiations with the then Promoters of the Transferor Company, the Transferee Company acquired the Transferor Company in the year 2016. Since then the Transferor Company is operating as a wholly owned subsidiary of the Transferee Company. With the critical support of the Parent Company-CMI Ltd, the Transferor Company has been turned around since then. For the financial year 2017-2018, the Transferor Company has earned operating profits for the first time in its history. Since continued support of the Parent Company is required, it would be in the larger interest of both these Companies and their stakeholders that the Transferor Company is merged into the Parent Transferee Company.
- c. The Transferor Company is engaged in manufacturing, trading, marketing and selling of low-tension, high-tension and extra high voltage power Cables and other specialty Cables; high ampacity bare aerial conductors and other related activities. Whereas the Transferee Company is engaged in manufacturing of Wires and Cables such as Railway Signaling Cables, Control & Instrumentation Cables, Jelly filled Telephone Cables, Power Cables and many other specialty cables including Cables for Refineries, Cables for ISRO, etc., and other related activities. The proposed amalgamation will enable the Transferee Company to offer wide range of wires and cables catering to different industries and users.
- d. The proposed amalgamation would enable pooling of physical, financial and human resource of these Companies for the most beneficial utilization of these factors in the combined entity.
- e. The proposed Scheme of Amalgamation will result in usual economies of a centralized and a large company including elimination of duplicate work, reduction in overheads, better and more productive utilization of human and other resource and enhancement of overall business efficiency. It will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth of their businesses.
- f. The said Scheme of Amalgamation will contribute in fulfilling and furthering the objects of these Companies. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The resulting amalgamated company will be able to participate more vigorously and profitably in the competitive market scenario.
- g. The proposed amalgamation would enhance the shareholders' value of the Transferor and the Transferee Companies.
- h. The said Scheme of Amalgamation will have beneficial impact on all the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.

8. Salient features of the Scheme of Amalgamation

8.1 The Scheme of Amalgamation, inter alia, provides as under:

Whereas Equity Shares of the Transferee Company are listed on BSE Ltd (Bombay Stock Exchange/BSE) and National Stock Exchange of India Ltd (National Stock Exchange/NSE). Both the Companies are under common management and control. The Scheme of Amalgamation will not result in any change in management of the Transferee Company.

1.3 Rationale of the Scheme:

The circumstances which justify and/or necessitate the proposed amalgamation of CMI Energy India Pvt Ltd with CMI Ltd are, inter alia, as follows:

- a. The Transferor Company is a Wholly Owned Subsidiary of the Transferee Company. Both the Transferor and Transferee Companies are engaged in similar business activities. The proposed Scheme of Amalgamation would result in business synergy, pooling of resources and consolidation of these Companies.
- b. The Transferor Company had a troubled history; operations of the Company were suspended for around 2 years during 2014-2016. The Transferee Company, on the other hand, is a well-established player with strong financials and marketing presence. After long negotiations with the then Promoters of the Transferor Company, the Transferee Company acquired the Transferor Company in the year 2016. Since then the Transferor Company is operating as a wholly owned subsidiary of the Transferee Company. With the critical support of the Parent Company-CMI Ltd, the Transferor Company has been turned around since then. For the financial year 2017-2018, the Transferor Company has earned operating profits for the first time in its history. Since continued support of the Parent Company is required, it would be in the larger interest of both these Companies and their stakeholders that the Transferor Company is merged into the Parent Transferee Company.
- c. The Transferor Company is engaged in manufacturing, trading, marketing and selling of low-tension, high-tension and extra high voltage power Cables and other speciality Cables; high ampacity bare aerial conductors and other related activities. Whereas the Transferee Company is engaged in manufacturing of Wires and Cables such as Railway Signalling Cables, Control & Instrumentation Cables, Jelly filled Telephone Cables, Power Cables and many other speciality cables including Cables for Refineries, Cables for ISRO, etc., and other related activities. The proposed amalgamation will enable the Transferee Company to offer wide range of wires and cables catering to different industries and users.

- d. The proposed amalgamation would enable pooling of physical, financial and human resource of these Companies for the most beneficial utilization of these factors in the combined entity.
- e. The proposed Scheme of Amalgamation will result in usual economies of a centralized and a large company including elimination of duplicate work, reduction in overheads, better and more productive utilization of human and other resource and enhancement of overall business efficiency. It will enable these Companies to combine their managerial and operating strength, to build a wider capital and financial base and to promote and secure overall growth of their businesses.
- f. The said Scheme of Amalgamation will contribute in fulfilling and furthering the objects of these Companies. It will strengthen, consolidate and stabilize the business of these Companies and will facilitate further expansion and growth of their business. The resulting amalgamated company will be able to participate more vigorously and profitably in the competitive market scenario.
- g. The proposed amalgamation would enhance the shareholders' value of the Transferor and the Transferee Companies.
- h. The said Scheme of Amalgamation will have beneficial impact on all the Transferor and the Transferee Companies, their shareholders, employees and other stakeholders and all concerned.

**Report on Internal Financial Controls Over Financial Reporting****Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **CMI Energy India Private Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

35. Summary of significant accounting policies

i. Basis of accounting

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Company (Accounts) Rules and the relevant provisions of the Companies Act, 2013/Companies Act, 1956 as applicable. The financial statements have been prepared on accrual basis under the historical cost convention.

ii. Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/ materialise.

iii. Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

iv. Inventories

- a) Raw Materials, Stores and Spares and Packing Material are valued at lower of cost, based on FIFO basis (Net of CENVAT Credit) or net realizable value.
- b) Work in Progress is valued at their estimated absorption cost (Net of CENVAT). Cost of Work in Process includes cost of raw materials and estimated overheads up to the stage of completion.
- c) Finished Goods are valued at lower of cost of production or net realizable value. Cost of finished goods includes cost of raw material, cost of manufacturing, cost of conversion and other cost incurred in finishing the goods.
- d) Scrap is valued at estimated net realizable value.
- e) Trading Goods are valued at lower of cost or net realizable value

v. Depreciation

Depreciable amount for assets is the cost of an asset, other amount substituted for cost, less its estimated residual value.

Depreciation on tangible fixed assets is provided on a pro-rata basis from the date the assets are put to use on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Intangible assets are amortized over their useful life i.e 5 years.

Intangible assets are recorded at the consideration paid for acquisition.

vi. Revenue recognition

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the dispatch of goods to customers. Sales include excise duty but exclude sales tax and value added tax.

Interest on time deposits is accounted for on accrual basis.

vii. Fixed assets (Tangible/ Intangible)

Fixed assets are carried at cost less accumulated depreciation/ amortisation and impairment losses, if any. The cost of fixed assets comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Subsequent expenditure on fixed assets after its purchase/ completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Fixed assets acquired and put to use for project purpose are capitalised and depreciation thereon is included in the project cost till the project is ready for its intended use.

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately in the Balance Sheet.

viii. Foreign currency transactions

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction.

Monetary items denominated in foreign currencies at the year-end are translated at the exchange rates prevailing on the Balance Sheet date.

Exchange differences are appropriately dealt within the statement of profit and loss.

ix. Government grants and subsidies

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants / subsidies will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets.

x. Investments

Long term investments are carried individually at cost, less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments includes acquisition charges such as brokerage, fees and duties.

xi. Employee benefits

Employee benefits include leave encashment, gratuity and compensated absences.

xiii. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

xiv. Income taxes

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

xv. Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognised in the Statement of Profit and Loss.

xvi. Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.

Report on Internal Financial Controls Over Financial Reporting

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of CMI Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The company follows the mercantile system of accounting and recognizes income and expenditure on accrual basis to the extent measurable and where there is certainty of ultimate realization in respect of incomes. The significant accounting policies adopted by the Company are detailed below:

1. Fixed Assets, Intangible Assets and Capital Work-in-Progress

Fixed assets are stated at cost, less accumulated depreciation. Direct costs are capitalized until fixed assets are ready for use. Capital work-in-progress comprises the cost of fixed assets that are not yet ready for their intended use at the balance sheet date. Intangible assets are recorded at the consideration paid for acquisition.

2. Investments

Long term investments are valued at their acquisition cost. Any decline in the value of the investment, other than a temporary decline, is recognized and provided for in the statement of profit and loss. Short-term investments are carried at cost or their market values which ever is lower.

3. Revenue Recognition

Revenue from the sale of goods is accounted for on the basis of actual dispatches of goods. Sales are inclusive of excise duty but net of sales tax and VAT. Materials returned/ rejected are accounted for in the year of return/rejection.

4. Foreign Currency Transaction

The transactions in foreign currency are recorded at the exchange rate prevailing on the date of transaction. Monetary liability / assets on account of foreign currency are converted at the exchange rates prevailing as at the end of the year. Exchange differences are appropriately dealt within the statement of profit and loss.

5. Depreciation / Amortization

Depreciation on fixed assets is provided to the extent of depreciable amount on straight line method except for fixed assets of PVC Cable division where depreciation is provided on written down value method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. The Intangible assets of the Company are amortized over lease period or economic useful life whichever is shorter. That software has been amortized over four years.

6. Valuation of Inventories

- Raw Materials, Stores and Spares and Packing Material are valued at lower of cost, based on FIFO basis (Net of CENVAT Credit) or net realizable value.

8. Taxes on Income

Current Tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of Income Tax Act, 1961.

Deferred Tax reflects the effect of temporary timing differences between the assets and liabilities recognized for financial reporting purposes and the amounts that are recognized for current tax purposes. As a matter of prudence deferred tax assets are recognized and carried forward only to the extent, there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternative Tax (MAT) credit asset is recognized in the Balance Sheet where it is likely that it will be adjusted against the discharge of the tax liability in future under Income Tax, 1961.

9. Use of Estimates

The financial statements have been prepared in conformity with generally accepted accounting principles, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the end of the reporting years. Although these estimates are based upon the best knowledge of the management of current events and actions, actual results could differ from these estimates

10. Impairment of Assets

An assets is treated as impaired when the carrying cost of the asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount. No Provision for impairment of assets is required since the management is of the opinion that the recoverable amount of fixed assets is equal to the amount at which they are stated in the balance sheet.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

14. Cash Flow Statement

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows.
